MEMORANDUM FOR: Project Director

SUBJECT : Supply Officer - Detachment A

I discussed this matter with [ ] on 13 February and he had numerous reservations regarding the establishment of this new position. He indicated that he wished to take them up with you prior to any formal request being levied on [ ]. They center around the question of how much of what kind of support we can expect from [ ] on supply matters at our overseas location. Accordingly, I have not instructed [ ] to include this requirement in his new TO.
